## Sanlorenzo SX76 (2022)

This new-like Sanlorenzo SX76, aligning with the design philosophy of the SX series, is a perfect option for the active yachtsmen enjoying their time at sea. With a strong emphasis on innovation and smart design, the yacht seamlessly blends functionality and elegance. Abundant open spaces and strategically positioned portholes flood the interior with natural light, creating a harmonious indoor-outdoor interplay.

The SX76 boasts generous living spaces including the iconic aft platform for water toys and active outdoor living, the cockpit that blends into saloon and a spacious flybridge with helm station and both dining and lounging areas.

The central focal point on main deck, the main salon, invites social interactions with its comfortable sofas, elegant dining setup, immersive entertainment systems, and an adjacent open kitchen, all sourced from the best Italian designer brands. Below deck, the accommodations are thoughtfully arranged, housing an expansive master suite, VIP rooms, a double room, and a crew cabin.

Notably, the SX76 features an innovative interior design element—a dreamlike floating staircase envisioned by Studio Lissoni. This artful passageway effortlessly connects the lower deck, main deck, and flybridge, encapsulating a sense of fluidity and unity that is truly exceptional.
